About In Win

Our Logo

The distinctive, lively red InWin logo, derived from the Chinese calligraphy "如" symbolizes "如意" or "satisfaction, according to one's wishes". With no sharp edges, the logo also portrays a state of energetic harmony between technology and art.

For over 30 years, InWin has been dedicated to designing original, contemporary and innovative products.

Today we announce our refreshed brand name and logo.

InWin's new look represents a revitalized commitment to our valued customers, patrons and partners; that we will continue to produce exciting and innovative new concepts with progressive features.

As a pioneering company we are proud to evolve along with the needs of the PC enthusiast and builder community, and we're confident and committed to the future of this industry.

Our Spirit

For any PC builder, the goal is to develop a glorious battlestation that instills pride.

At In Win Development Inc., we are always pushing the boundaries, testing limitations and developing imaginative concepts into reality.

Our goal is to provide our customers with quality products that have innovative designs that far surpass anything on the market.

This is achievable since the brainstorming, designing and manufacturing process are all conducted in-house. We want our customers to be proud owners of our products, and build the ultimate gaming rig.

Gaming transports us to another realm, we happily provide a suitable vessel for the PC Master Race.

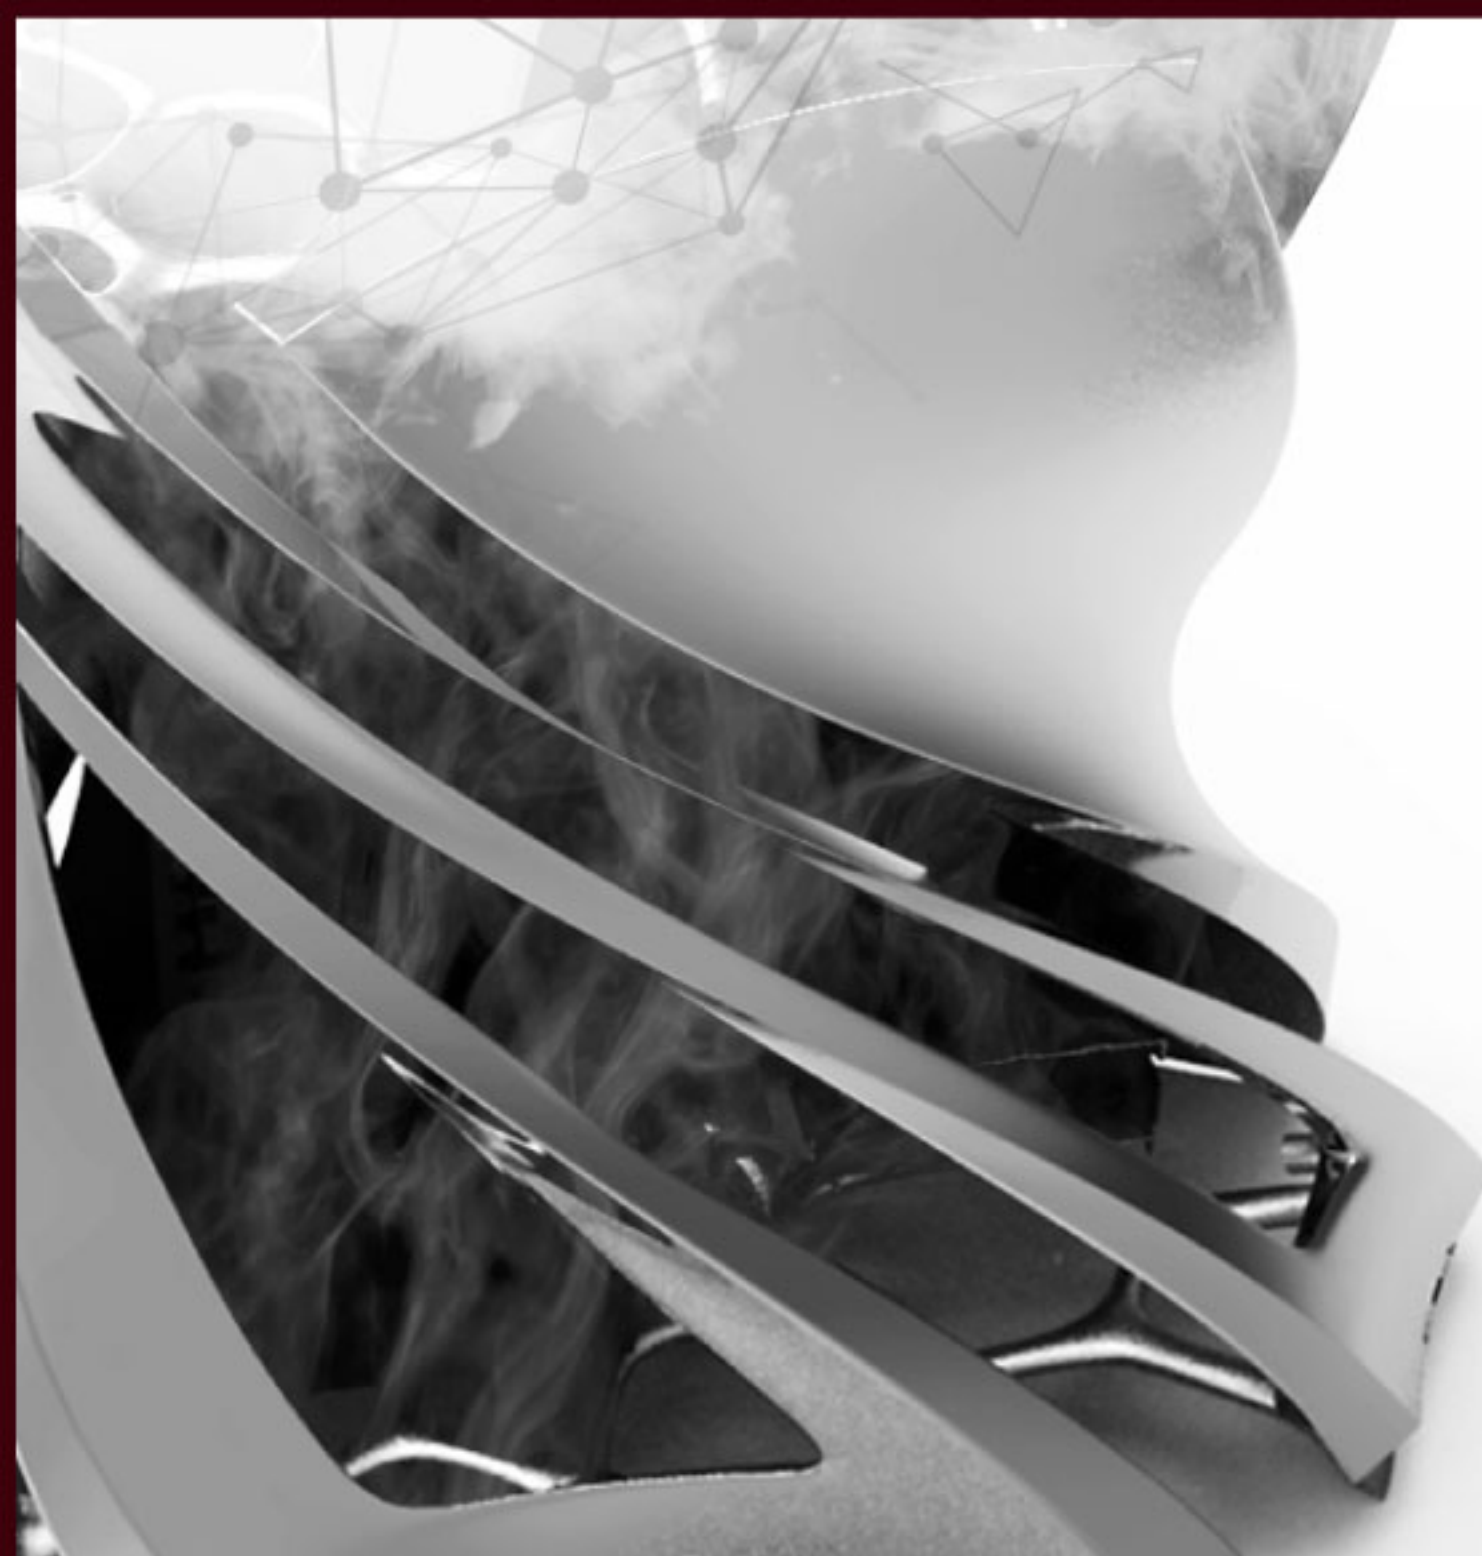

Signature Products

Z-Tower

WINBOT

tou 2.0

D-Frame 2.0

Z
Tower

The Z-Tower is InWin's latest concept signature chassis inspired by the aesthetics of architecture and quality materials. Feel the harnessed power emit through the strengthened skeletal structure. Create greatness by utilizing the Z-Tower's pure, artistic and asymmetrical design.

- * Z-Tower: Pure, Architectural Art
- * Phenomenal Geometric, Helix Structure Complemented with a Striking Color Scheme
- * Reversible USB 3.1 Gen 2 Type-C Design
- * Distinct Limited-Edition Chassis
- * Created for Optimal Performance with Superb Ventilation

WINBOT

Behold, PC Building Evolved!

Immerse yourself with an innovative and interactive battlestation!

InWin continues to integrate innovation through technical prowess and a little imagination. It is through these methods that In Win is able to uphold its own standards to create these ground-breaking design concepts.

WINBOT triggers the senses of humanity. The aesthetically pleasing transparent sphere, that serves as an orb to the PC hardware glory hosts a remarkably satisfying vibe from the selected materials. The integrated interactive features react to human elements such as: hand signals and facial detection.

WINBOT surpasses the conventional enclosure; welcome to the new age.

- Advanced Facial Detection for Scanning Mode
- Intelligent Hand Signals Operating System
- Reversible Design of USB 3.1 Gen 2 Type-C
- Display 360° View of Stunning Rig
- Limited Edition Chassis

touch 2.0

- Just Touch- Intuitive Design with a User-Friendly Interface
- A Contemporary, Transparent, Mirrored chassis
- A Sleek Combination of 5mm Thick Tempered Glass and Aluminium Alloy
- USB 3.1 Type-C Ultra-High-Speed Transmission
- Exclusive illuminated SIV-1065W Power Supply

SIGNATURE SERIES SIV-1065W

- Provides Up to 92% High-Efficiency Conversion Rate
- Four Timed Extra Power Modes
- USB Intelligent Fast Charge
- Fully Modular Cables for Quick and Easy Installation
- Highly Reliable Japanese Aluminium Electrolytic Capacitor
- 165mm Silent Fan Design

tou  2.0

D *Open-Air Chassis* **Frame** 2.0

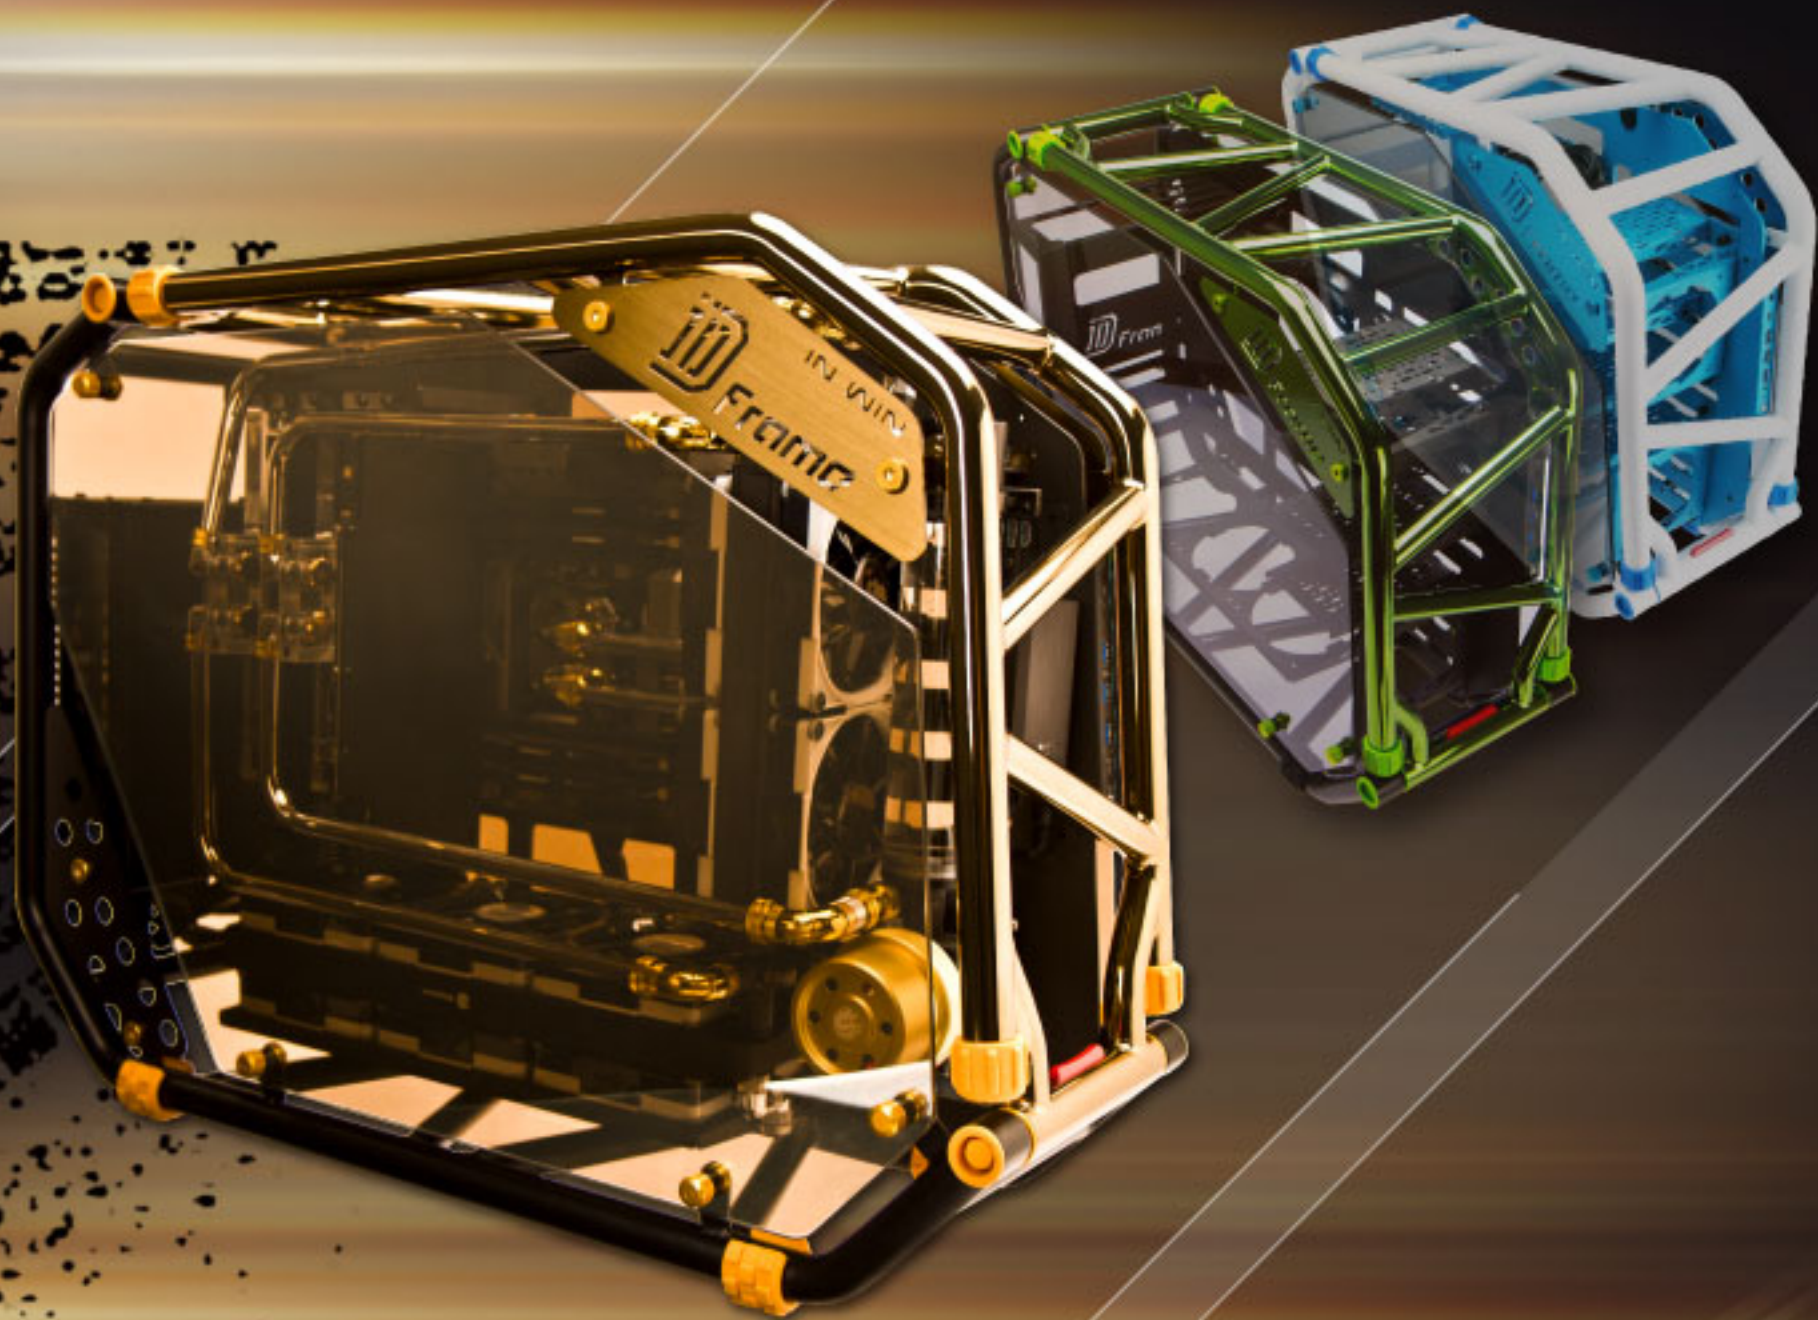

- Handcrafted Metallic Tubing Structure
- Innovative Two-Way Opening Design with Quick-Release Fasteners
- Customized, Flexible and Versatile Thermal and Hard Drive Modules
- Supports USB 3.1 Type-C Super Speed Transfer Interface
- Bundled with the Signature Series Power Supply SIII-1065W

SIGNATURE SERIES SIII-1065W

- Transparent Power Supply with the Shape of Air-Cooled Engine and Aluminium Alloy Top Cover
- Four Timed Power Modes
- USB Intelligent Fast Charge
- Low-Profile Cable Set for Quick and Easy Installation
- Highly Reliable Japanese Aluminium Electrolytic Capacitor

- Curved Aluminium Structure
- Automatic Elevating Ventilation Cover
- Top Addressable RGB with 13 + Distinctive Lighting Effects
- Ultrafast USB 3.1 Gen 2 Type-C Port
- Tinted Tempered Glass Side Panels
- Better Airflow for a Cooler Rig

915

E-ATX Chassis

The image shows the ASUS ROG Strix 915 graphics card, which is illuminated with vibrant green and yellow light. The card is positioned vertically on the left side of the frame. A curved rainbow light effect is visible at the top left. The background is dark, making the glowing components stand out.

Addressable RGB MOD

Illuminated LED Control

Designed with two lighting modes, the 915 allows users to switch between InWin LED lights and addressable RGB modes to personalize your rig!

805...

ATX-CHASSIS

- The 270 Degree Wide-angle Visual Perspective
- High Quality Aluminium with Anodized Stylish Hairline
- 3mm Tempered Glass
- Super Speed Transmission USB 3.1 Type-C
- Versatile HDD Mounting Position for Optimized Functionality
- Excellent Liquid Cooling Support for Better Airflow

805

∞ Infinity

- Front Panel Creates an Illusion That Displays Endless Rows of LED Lights Fading into Darkness
- High Quality Aluminium with Anodized Stylish Hairline
- 3mm Tempered Glass
- Super Speed Transmission USB 3.1 Type-C
- Versatile HDD Mounting Position for Optimized Functionality

HALO Software

- Save up to 10 of Your Personal Lighting Mode
- Share Your Lighting Effect With Other User

AURA Ready

- Most Compatible with the Onboard 4-pin RGB Header(s) Found on Many ASUS/ROG Motherboards
- Compatible with AURA Software

ROG Certification

- Possesses the Design Consistency and Reliability of an ROG Certified Product.

307

Mid Tower

- Internal Microphone Detects Sound and Reacts with Light
- Equalizer Mode's Lights Reveal the Rhythm of Music
- Clock Display Shows the Time on the front Panel
- Customize Own Lighting Effect with the Exclusive Software
- Reversible Design of USB 3.1 Gen 2 Type-C

305

Mid Tower

- Modest Aesthetic Design Combined with Wood and Glass
- Laser Engraving of InWin Logo
- Tool-less Tempered Glass Side Panel
- Graphics Cards Support Holder
- Separate PSU Chamber Creates Efficient Air Flow
- 1.2mm Thickness SECC Steel Construction

303

Mid Tower

- Exquisitely Modest Aesthetic Design
- LED Neon Lucent Stripped I/O Panel
- The Thickness of SECC Reach 1.2mm with High Quality Material
- Unique Tool-less Design of 3mm Tempered Glass Side Panel with Elegant InWin Logo
- Extra Graphics Card Support Brackets
- Support Up to 7 Fans Provides Excellent Cooling Performance

303

Mid Tower **C**

- RGB LED Radiant Front Panel
- Latest USB 3.1 Gen 2 Type-C
- Tool-less Tempered Glass Side Panel
- Outstanding Cooling Performance
- Separate PSU Chamber Creates Efficient Air Flow

IN WIN

303

MSI Dragon Edition
Mid Tower

- InWin + MSI = Glorious PC
- 1.2mm Thick SECC Steel Construction
- RGB LED Radiant Front Panel & Side Panel

- Quick-Release Glass Side Panel
- User-Friendly Dust Filter
- Separate PSU Chamber Creates Efficient Air Flow

301

Mini Tower

- 1.2mm Thickness SECC Steel Construction
- Tool-less Tempered Glass Side Panel
- LED-backlit Display I/O Front Panel
- Extra Graphics Cards Support Holder
- Supports Superior Liquid Cooling
- Radiators at Front and Rear

301

C
Mini Tower

- Reversible Design of USB 3.1 Gen 2 Type-C
- RGB LED Radiant Front Panel
- Tool-less Tempered Glass Side Panel
- 1.2mm Thickness SECC Steel Construction
- Graphics Cards Support Holder
- Removable Dust Filter on Bottom

101

Mid Tower

- Modest yet Sharp Luminous Front Panel
- Accelerated Tool-less Design
- Versatile Cooling Options
- User Friendly Dust Filter
- Top PSU Chamber for Better Air Flow

101

C

- Latest USB 3.1 Gen2 Type-C
- Radiant RGB Front Panel
- Versatile Cooling options
- Accelerated Tool-less Design
- Graphics Cards Support Holder

101

 **TUF GAMING**
Mid Tower

- ASUS TUF GAMING Alliance Design
- Battlestation Armed and Ready for Combat
- Enhanced Thermal Solution
- Accelerated Tool-less Design
- Top PSU Chamber for Better Air Flow

102

Mid Tower

- Exquisitely Aesthetic Design
- Unique Ventilated Steel Side Panel Design
- Accelerated Tool-less Design
- Graphics Cards Support
- Top PSU Chamber for Better Air Flow
- Outstanding Cooling Performance

103

Mid Tower

- Sharp Exterior Pinstripe Design
- Radiant LED Tool-less Tempered Glass Side Panel
- Supports Up to 6 Fans Simultaneously at the Rear, Side and Bottom
- Top PSU Chamber and Dust Filter
- Complimentary Specialized GPU Holder

A1

Mini-ITX Tower

- Accommodates Powerful Hardware Despite Compact Size
- Illuminated RGB Lighting Base
- Wireless Mobile Device Charging Area
- Quick-Release Tempered Glass Side Panel to Swap Component
- InWin PSU Prebuilt with Cables Managed

CHOPIN

Mini ITX Tower

- 4mm Brush Aluminium Exterior
- Customizable I/O Panel
- Perforated Mesh Panel for Excellent Ventilation
- Dual Orientation Position
- 150W 80 Plus Bronze PSU Included

- Shockproof Rubber Stand

RGB Lighting

Modular Connector

Polaris is after the brightest star in the Ursa Minor constellation, AKA: the North Star.

Capturing this celestial spirit and InWin's motto: "Contemporary & Innovative",
our designers fuse the concepts to establish our Polaris case fans.

The embedded LEDs in the center of the fan creates
a beautiful radiant display.

MARS

Multi-Function Case Fan

- Innovative Transformer Design
- Stack Your Fans to Upgrade Thermal Performance
- Modular Connectors for Easier Installation
- 360° Rotatable Hinge for Optimal Airflow Performance
- Premium Quality and Durable Exterior Metal Frame
- Versatile Fan that Cools a PC or Other Warm Environments

Accessory
