- **7.1 CHANNEL SURROUND SOUND** - For a revolutionary 3-dimensional gaming and entertainment experience. Stay ahead of the competition with crisp audio precision and an immersive soundstage.
- **WAVES NX HEAD TRACKING TECHNOLOGY** - Delivers a hyper-realistic 3D audio experience. Nx automatically tracks your natural movements immersing you into a virtual reality audio environment indistinguishable from being in the game or movie theater.
- **50 mm MAGLEV GRAPHENE DRIVER** - Get in the game with superior sonic detail and Super Bass VR Shock Wave for high-impact bass and sound you can FEEL.
- **ENVIRONMENTAL NOISE CANCELLING (ENC)** - ENC Dual microphone technology filters out 90% of background noise for crystal clear communication with teammates or opponents.
- **CUSTOMIZABLE LED LIGHTING** - Over 16 million customizable color options for personalizing your gaming style and experience. LED tube can either be extended or shortened for optimal use.
- **LIGHTWEIGHT & DURABLE** - Stainless steel construction with cushioned suspension band for long-lasting durability and comfort.
- **ADDITIONAL 3.5 mm CONNECTOR** - Premium stereo only sound experience on gaming consoles, Mac OS, or mobile devices.
